

For Thin Babies

Fat is of great account to a baby; that is why babies are fat. If your baby is scrawny, Scott's Emulsion is what he wants. The healthy baby stores as fat what it does not need immediately for bone and muscle. Fat babies are happy; they do not cry; they are rich; their fat is laid up for time of need. They are happy because they are comfortable. The fat surrounds their little nerves and cushions them. When they are scrawny those nerves are hurt at every ungentle touch. They delight in Scott's Emulsion. It is as sweet as wholesome to them.

Farmed-out Highways.

The railroads, by all the laws of the nations, is quite as much a highway as is a wagon road. But instead of levying direct taxes for keeping up rail-highways (as do the people of Prussia, Austria, Switzerland and other countries) we Americans "farm out" the power of taxation to private individuals organized as a railroad corporation. The old kings farmed out the power of ordinary taxation to their favorite barons in the same way. The instrument which conveys this power upon a railroad is a "charter." It gives the railroad company the right to operate the rail-highways and to charge a freight-rate (a tax) for doing it. Railroad presidents and directors are thus by appointment made the tax-collecting representatives of the people. For railroads are not now and never were private property, like a farm or a grocery store. They are highways.

The first essential of a tax is that it shall be just. To establish that point the Anglo-Saxon people have shed rivers of blood; our English ancestors revolted against the old barons who taxed both unequally and extortionately. Our American progenitors tossed the British tea into Boston Harbor and fought from Lexington to Yorktown to establish the principle of fair taxation.—From "Railroad Rebates," by Ray Stannard Baker in the December McClure's.

CURED PARALYSIS.

W. F. Baily, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm, when I was persuaded to use Ballard's Snow Liniment, which cured her all right. I have also used it for old sores, frostbites and skin eruptions. It does the work." Sold by Crenshaw & Young. 12-9ml

A Booklet on Western Kansas.

So many Lafayette Countians have been prospecting and buying land in Northwestern Kansas, that people will be interested in the book on that country which R. S. Lemon, Immigration Agent for the Union Pacific, has just published, and is now distributing for the purpose of securing immigration for that railroad.

Many people have the impression that Western Kansas is a cattle

country, and not a farming country. It is not many years ago that this was so. The cattle men tried hard to retain their hold on the open ranges. They talked down the country at every opportunity. And when the cattle ran and range, the farmers from eastern Kansas, Missouri, Illinois, Iowa, and other states, who were not able to buy land in their own state, are raising good crops of wheat, kafir, cane, barley, and alfalfa.

An interesting feature of the book concerns the rainfall, and the likelihood of raising a crop every year. It is shown that the climate is surely changing. Not only is the rainfall increasing, but it is possible to grow good crops with less moisture, caused by nearly all the land being farmed. Western Kansas is a new country agriculturally, and the development and present prosperity is shown by the photographs and the written story is a pleasant surprise. The book was written by Moreland Brown.

DEAFNESS CANNOT BE CURED by a local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

The Financial Juggernaut.

An eloquent picture of the victims of financial disasters is given by Mr. Lawlor in the December instalment of "Frenzied Finance," in Everybody's Magazine. He says: "Those who ride to fortune on the Financial Juggernaut never look back over the maimed and bleeding bodies that strew its cruel course. Ahead are new victims waiting to throw themselves beneath the never-passing wheels. After a massacre Wall Street's corpses are cast into the river and sand is strewn to conceal the blood stains. The injured sink into holes and nurse their wounds in secret. Wall Street never publishes lists of its dead and wounded. Regrets, in its philosophy, are as futile as burned matches. Besides, such details discourage speculation. Let the band play, whoever is hurt. Who cares for yesterday when tomorrow's ahead? Of all aspects of frenzied finance, this brute insensibility to failure and collapse, this greed for the new victims, is the worst. It was only a few days till the old Juggernaut, after the crash of May 9th, resumed its interrupted death course along the dollar highway, and the sun shone and the birds sang and the fools prostrated themselves in the dust before its conquering wheels, just as though the North River were not at that very moment glutted with its victims."

COUGHING SPELL CAUSED DEATH.

"Harry Duckwell, aged 25 years, choked to death early yesterday morning at his home, in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for physician but before he could arrive, another coughing spell came on and Duckwell died from suffocation.—St. Louis Globe Democrat, Dec. 1st, 1901."

Ballard's Horehound Syrup would have saved him. 25c, 50c, and \$1.00. Sold by Crenshaw & Young. 12-9ml

The following story is going the rounds of the country newspapers: Two Kansas men had walked over into Missouri and just after crossing the Missouri line stopped at a farm house. They asked the good woman of the house where the state line was and she politely pointed it out to them just a few rods back. "Now, isn't that queer," said one of the men. "I noticed that when I came along here a while ago I wanted to take a chew of tobacco as soon as I got on this side." "Well, now that is rather strange. Isn't it?" remarked the woman. "And that reminds me of our trip to Kansas last year when we went there to visit my sister who lives over there. Do you know, just as soon as we crossed the Missouri line into Kansas I felt like I wanted to steal something."

The most pleasant, safest and best remedy to use for coughs, colds, croup, whooping cough, etc., is Kennedy's Laxative Honey and Tar. This remedy expels all cold from the system by acting as a cathartic on the bowels. Sold by Crenshaw & Young. 12-9ml

Died, at his home near Bates City, Thursday, November 23, 1905, Cyrus McDonald, aged about 79 years.

INDIGESTION'S RECORD

"The best remedy I can prescribe for your indigestion, madam, is Green's August Flower. I know of several other physicians who prescribe it regularly."

Indigestion is making an awful record as a cause of sudden death. It is beating heart-failure in its ghastly harvest. You read in the papers daily of apparently healthy and even robust men being suddenly attacked with acute indigestion after enjoying a hearty meal, and of their dying in many cases before a physician could be called in.

This should be a warning to you who suffer with regular or periodical attacks of indigestion. If these unfortunate victims of acute indigestion had taken a small dose of Green's August Flower before or after their meals they would not have fallen a prey to such sudden seizures. August Flower prevents indigestion by creating good digestion. It also regulates the liver, purifies the blood and tones up the entire system in a natural way. Two sizes, 25c and 75c. All druggists.
